

Driving in Iceland

Welcome to Iceland!
Your rental car can bring you to many interesting and beautiful places in our country. Please stay safe and take the time to familiarize yourself with special Icelandic conditions by reading this card.

Off-road driving is forbidden. Violators are subject to substantial fines.

Turn for more information.

Speed limits
Gravel roads: 80 km/h (50 mph)
Paved roads: 90 km/h (56 mph)
Urban: 50 km/h (31 mph)

Seat belts for all
According to Icelandic law everyone must wear a seat belt regardless of where they are seated in the car.

Photo locations
It is extremely dangerous to stop your car on or by the road to take pictures. Choose your photo locations with safety in mind.

Gravel roads
There are many gravel roads in Iceland. Take great caution and slow down.

Headlights
While driving in Iceland, headlights are required to be on at all times, all year round.

112 The emergency number in Iceland is 112

Mobile phones
All use of mobile phones is prohibited while driving.

Get to know the special Icelandic traffic signs!

Single lane bridge
Please approach with caution.
EMBRÆIÐ BIRU

Blind crest
Please keep to the far right side of the road.
BLINDHÆDIR

Pavement changes to gravel
Gravel road ahead. Please exercise caution and slow down.
MALBÍK ENDAR

Roundabouts
In roundabouts, the inner lane has the right of way.

Unbridged river
Crossing a river is forbidden in this car.
ÖBRÚÐAR ÁR

New Traffic Regulations in Iceland have Raised Penalties Substantially

Below are some examples of traffic offences and penalties:

Traffic Violation	Before*	Now*
Driving where speed limit is 50 km/h but speed is 88 km/h	€ 328	€ 523
Driving where speed limit is 90 km/h but speed is 160 km/h	€ 1,230	€ 1,967
Use of mobile phone without handsfree equipment	€ 41	€ 328
Fine for not using seatbelts (per passenger)	€ 82	€ 164
Fine for driving with headlights turned off	€ 41	€ 328
Fine for driving under the influence of alcohol or drugs (up to)	€ 1,967	€ 2,623
Fine for overtaking without due caution	€ 41	€ 164

Remember also to slow down for nature protection (around nesting areas for example) and beware of the sheep 😊

Useful links:

Roads conditions: <https://safetravel.is/conditions> or <http://www.road.is/>

Weather forecast (also usually available on road.is): <https://en.vedur.is/>

Advices and useful hints:

- Check the pressure of the tyres every time you go through a N1 station, especially when going to the Highlands where you will need to lower the pressure of the tyres
- The correct pressure for a car's tyres is usually written inside the fuel cap cover or in the frame of the driver's door

Tyre pressure equivalents:

BAR	PSI
2.25 bar	33 psi
2.30 bar	34 psi
2.40 bar	35 psi
2.50 bar	36 psi

1 bar = 14.5 pounds per square inch.

- If you get a flat tyre, replace it with a tyre you have in the car with the jack and spanner. The spare tyre can be under the car in case of pick up for example. In any case, call the coordinator who will direct you to the right place for tyre repair. You can also ask the local ranger if needed.

Driving in specific areas/conditions:

- **Thought tunnels:**

If you drive through the tunnel near Akureyri, never mind of the payment, your car has been registered 😊

Vaðlaheiði Tunnel in Northern Iceland

Register your vehicle through www.tunnel.is

The recently opened tunnel in northern Iceland on Road number one through Vaðlaheiði between Akureyri and Lake Mývatn has camera operated Road-Tolls. Register your vehicle licence plate and credit card and the toll will be charged automatically to your card every time you drive through the tunnel.

Paid within 3 hours
If a trip is paid up to three hours before or no later than three hours after travelling through the tunnel.

 Vehicles under 3.5 tons Price: 1500 ISK	 Vehicles 3.5 tons and over Price: 6000 ISK
--	---

Paid after 3 hours
If a trip has not been paid three hours after travelling through the tunnel, the toll bill will be sent to the registered owner of the vehicle with an added collection fee of 1000 ISK. Europcar will invoice its customers accordingly with the addition of handling fee of 500 ISK.

 Vehicles under 3.5 tons Price: 3000 ISK	 Vehicles 3.5 tons and over Price: 7500 ISK
--	---

- **Highlands**

- Read the specific document about how to drive and cross rivers – in any case, it's always useful to check and double check weather and road conditions before driving to the highlands. A contact with the local ranger is recommended.
- In the Highlands, most roads are bumpy/gravel/sandy roads. Before you drive to the highlands, it could be useful to lower the pressure of the tyres. Sometimes, you won't be able to drive faster than 20km/h: it's never a problem, take your time 😊
- In the Highlands, there are not a lot of gas stations. Make sure to fill the gasoline tank before driving out of the main road. Tight the gasoline tank as much as possible so it doesn't leak.

• Crazy weather

- The weather in Iceland is unpredictable even during the summer. Coordinators and local rangers will always warn you about the weather conditions when needed, especially when entering some well-known areas (southern Iceland, the highlands...)
- Many road signs will also warn you about the weather like the wind speeds - **never underestimate the power of the wind in Iceland** 😊 // side wind can be unpredictable and really dangerous

Wind is coming from :
 A : austur => east
 V : vestur => west
 N : norður => north
 S : suður => south

Wind speed in m/s :
 10 m/s = 36 km/h
 20 m/s = 72 km/h
 30 m/s = 108 km/h

Wind gust in m/s
 Remember to slow down
 when approaching to
 glacier where gusts can be
 worse than expected

😊 PLEASE DRIVE CAREFULLY 😊
