

Látrabjarg Nature Reserve

Simplified Coordinates for Seafarers

This list of coordinates is a simplified version of the official coordinates for the Látrabjarg Nature Reserve, intended for seafarers who can enter the coordinates into their devices.

While there are 326 official coordinates in the full protection area, they have been simplified to 10 key points here.

As the boundaries have been simplified, care has been taken to ensure that the maritime boundaries are always in favor of the reserve. On land, the boundaries have been further simplified, often tilting in favor of areas outside the reserve, as this list is not intended for use on land.
