**Subject: Umsókn fyrir ljósmynda- og kvikmyndatökur á friðlýstum svæðum**

The Environment Agency of Iceland has received an application from Julia Dahlkvist, dated August 15<sup>th</sup> 2024, for permit to fly a drone within Fjallabak and Kerlingarfjöll.

Fjallabak is protected as a nature reserve, cf. regulation no. 354/1979. Construction work, extraction of minerals, disturbance to geological formations, vegetation and wild animal life in the protected area is prohibited. The use of unmanned aircraft (drones) within the nature reserve from June 15<sup>th</sup> - September 15<sup>th</sup> is subject to a permit from the Environment Agency of Iceland.

Kerlingarfjöll is protected as an area of landscape, cf. Regulation no. 822/2020. Disturbance to geological formations, landscape, hot springs, other springs and ecosystems in hot springs in the protected area is prohibited. Permission must be obtained from the Environment Agency of Iceland for organized events and projects that need facilities, labour force or use of equipment within the protected area such as filming, at events and ceremonies.

**Description of the project:**

Permit is requested to fly a drone at Kerlingarfjöll and Fjallabak. In Fjallabak nature reserve the droneflight would take place in Landamannalaugar and near roads nearby. There would be no need to go off paths and roads and no use of props and sets. The flights would take place in the period of August 20<sup>th</sup> - September 4<sup>th</sup> 2024.

**Impact assessment:**

The Environment Agency of Iceland considers the project not likely to have negative impact on the nature and the conservation value of Fjallabak. The flights might have negative impact on other visitors but if conditions are followed the impact can be recuced.

**Conclusions and conditions:**

After revision of the application, regulations for the sites and management plans it is concluded that no permission is needed to fly a drone at Kerlingarfjöll in the period requested if the flight does not disturb wildlife and other visitors experience.

The Environment Agency of Iceland hereby grants Julia Dahlkvist permission on its behalf to fly a drone within Fjallabak Nature reserve as described above on August 20<sup>th</sup> - September 4<sup>th</sup> on the following conditions:

- Keep this letter with you on site during the project.
- The applicant shall inform rangers in the area about their arrival and departure. This is to be done 24 hours before entering the area and again before leaving it.
- If the project dates or description changes the Environment Agency shall be notified as soon as possible.
- applicant should always stay on authorized paths/tracks/roads.
- If any complications occur during the project, please contact the ranger or the Environment Agency of Iceland, tel. +354 591 2000.
- Off-road driving in Iceland is strictly prohibited.
- The applicant is required to prevent all disturbance to the environment and make sure that all litter is removed from the sites.
- If the material is meant for public viewing it must be noted in the video/subtext that permission from the Environment Agency was obtained for the filming/photography.
- The applicant should be conscious of other guests on the sites and make sure that filming causes as little disturbance as possible to other visitors.
- An unmanned aircraft should never be flown in close proximity to people. Please take precaution not to disturb people's experience, their safety or personal privacy nor the general peace of the protected areas being filmed.
- An unmanned aircraft should never be flown near animals or birds, neither in nesting areas nor during nesting season or any other seasonal time when animals or bird habitats are considered vulnerable.
- Flight time should be kept to a minimum and flight should be avoided during the area's busiest times of the day.
- If the use of unmanned aircraft causes disturbance to wildlife in the area, its use should be ceased at once.
- The conductor of the unmanned aircraft is responsible for the aircraft within the protected area. This includes taking responsibility of any possible risk of harm to people, fauna and nature and leaving no permanent marks on the site in question. Should the aircraft crash, all components from it must be collected and removed from the area.
- Attached to this permit is a map showing where droneflight is not allowed within Fjallabak nature reserve.

If the licensee causes damage to nature, according to art. 87 in the Nature Conservation Act no. 60/2013, the Environment Agency of Iceland can, according to the Nature Conservation Act, f.e. order the licensee to fix damage to nature and vegetation and/or stop the project.

The Environment Agency of Iceland can according to art. 89 in the Nature Conservation Act no. 60/2013 change conditions of the permit, add new conditions or withdraw the permit in order to prevent damage to nature if environmental conditions change.

According to art 89. in the Nature Conservation Act no. 60/2013 the Environment Agency can withdraw the permit if conditions of the permit are not complied to.

Unmanned aircraft should take off and land in a safe distance from other visitors according to regulation 990/2017 on unmanned aircrafts.

The usage of a drone shall be according to regulation no. 990/2017 on the operation of remotely piloted aircraft (<https://www.icetra.is/aviation/drones/>).

Please note that according to the regulation all drones used for commercial flight need to be registered at the Icelandic Transport Authority.

**Permission fee:**

Environment Agency of Iceland charges a fee for processing applications for permits in protected areas based on Article 92 of Act no. 61/2013 on Nature Conservation. The fee for droneflight for recreational flight in up to two areas is **41.600 ISK** according to art. 29. b. in the agency's tariff no. 1410/2023.

**Supervision:**

The Environment Agency will supervise the project. The supervisor will be a ranger from the Environment Agency.

Sincerely

Valdimar Kristjánsson
